DESIGNED FOR EFFICIENCY

One CocoWalk's floor plates affords tenants a highly efficient configuration. The building's four floors of office space are well suited for both single and multi tenant configurations. In addition to having Coconut Grove's largest office floor plates, One CocoWalk's ample window lines and high ceilings provides tenants with abundant natural light and views.

One Cocowalk's superior HVAC and heat pump system allows individual tenants to control the time of use of each heat pump so they may isolate certain zones for air conditioning, especially on weekends or evenings, as needed. Energy consumption is controlled by individual tenants for their specified electrical meter, as the heat pumps are powered and programmed individually, which allows each tenant to be accurately billed per usage.
