## Think outside the Walls.

Introducing 545wyn, a ground-up new construction 298,000 square foot creative office and retail building located at 545 NW 26th Street in Wynwood. Developed by Sterling Bay and designed by Gensler, 545wyn was created with three simple, yet crucial goals: to elevate Miami's typical office experience, to authentically reflect Wynwood's vibrancy and to engage the neighborhood.

Sterling Bay is a Chicago-based award-winning real estate developer focusing on ground-up office, retail and residential developments, urban campus build-to-suit projects and the adaptive reuse of loft office buildings. The firm has single-handedly raised the bar and set urban trends for office developments by featuring cutting-edge design and unique tenant amenity packages at each of its properties. As a result, Sterling Bay has successfully attracted tenants like Google, McDonald's Corporation, Dyson, Twitter, Anthropologie, Pinterest and Tyson Foods.

## Office, artfully done.

545wyn's progressive design offers tenants over 298,000 square feet of modern office space on oversized floor plates of up to 38,000 square feet. The building will also feature 441 on-site parking spaces, a 14,000 square foot private tenant amenity floor, open-air balconies and a 8,000 square foot paseo park connecting 26th and 27th Streets with 26,340 square feet of retail. These amenities, coupled with Sterling Bay's incomparable design, will set a new standard of excellence for creative office space in Miami.

## Why Wynwood? Why now?

Wynwood is undeniably the new arts, retail and business hub of Miami. The city's corporate tenant interest is heavily focused on Wynwood, with the neighborhood's growth continuing to outpace the supply of quality office product. 545wyn is designed by one of the world's best architecture firms and envisioned by one of the most successful developers in the commercial real estate industry intent on setting a new standard of excellence for creative office space in South Florida.

## The broad strokes

Over 298,000 SF of modern office space on ten floors, with flexible floorplates ranging from 20,248 to 38,271 SF

---
